To Whom It May Concern:

RE: Hiyab Belay – NIE Letter

DOB: 07/15/1992

Hiyab is a patient who has been under my care for her pregnancy. Her estimated due date is 01/28/2022.

Please allow for Hiyab's mother, Nigisti Berhe Tareke, DOB 05/25/1957, to come help in preparation for and care after the birth of her baby.

Hiyab and her husband have limited to no family support here in the U.S., and she would greatly benefit from having her family here during this time.

Date of Travel requested is as soon as: January 2022

Please note that all dates are pending Visa approval.

Respectfully,

Yetunde Awosemusi M.D., F.A.C.O.G.
